THE *DIRECTOR'S* MESSAGE

Lt. Gen. S H Kulkarni (Retd.)
PVSM, AVSM, VSM**

One active chapter within the Mayo fraternity is the Mayo French Society.

Our goal is to develop world-class leaders who are sensitive to and mindful of everyone on Earth. It is tremendously beneficial for our future leaders to develop the ability to feel at ease in the company of people from diverse cultural and linguistic backgrounds.

Le Concours de la Francophonie du Mayo held its 10th edition in October 2023. This year again the festival turned out to be an incredibly entertaining, busy and inspiring event.

France is the 5th most spoken language in the world. Therefore I am convinced speaking this beautiful language will be a huge asset for the future of all the students.

MESSAGE FROM THE *HOD*

M. Kunal Kumar
Chef du département
de français

Hello and welcome to the French Language Department. In October 2023, Le Concours de la Francophonie du Mayo celebrated its 10th anniversary. I am very happy to see how LCF has evolved over the years. In particular I am very happy that many creative competitions have been integrated and that new sections have been added to the Francomania magazine. As we believe in connecting and not only communicating, we are proud to have put in touch many Francophile people from various countries. Le Concours de la Francophonie du Mayo showcases a wide scope of events ranging from Singing Competitions to Spell Bees. They aim at creating an open, vibrant space for the students to interact and learn not just about the francophone culture but also from the vibrant experiences of their peers. In the past ten years, we have organized ice breaking sessions, cultural event, treasure hunts, cooking workshops, which have been specially integrated in the festival to enhance enjoyment and interactions. Thanks to these diverse activities, all the participants have expanded their knowledge and skills, made many new international friends and taken back unforgettable memories.

MR PAUL LOYRETTE

FRENCH TEACHER IN
MAYO COLLEGE

PAUL LOYRETTE, BORN IN PARIS, HOLDS A MASTERS
IN FRENCH LITERATURE FROM LA SORBONNE
UNIVERSITY. PASSIONATE ABOUT TRAVEL AND
LANGUAGES, HE HAS WORKED IN ITALY, GERMANY,
CHINA, RUSSIA, AND UZBEKISTAN.

DO YOU THINK MAYOITES
ARE KEEN LEARNERS?

I am impressed by the Mayoites' vast scope of interests and activities. They are busy 24/7: studying, playing sports, performing on stage, hosting international competitions, traveling to debating tournaments... I often wonder if they have time to sleep. A Mayoite is always learning something new inside or outside the classroom.

WHAT IS IT YOU LIKE MOST
ABOUT MAYO COLLEGE?

I have taught in many schools around the world but Mayo is truly unique. The sports facilities are amazing and the main building is so beautiful especially at night. I love being part of a vibrant community, where staff and students are always open to consider new ideas and implement innovative projects.

YOU ARE COMING FOR THE SECOND TIME TO MAYO, WHAT CHANGES DID
YOU ENCOUNTER?

I have changed a lot. When I first came to Mayo six years ago, it took me a long time to adapt. Living subsequently in China, Russia and Uzbekistan has taught me a lot. I came back to India with a much more open and relaxed mindset.

WHAT MADE YOU COME BACK TO MAYO?

I love living on the campus (**JAI BT!**) and not having to take the metro every day to go to work. But the main reason I came back is India. There are so many fascinating cities and historical sites I want to discover. Over Diwali I am planning to travel to Ellora and Ajanta caves via Indore. And I would like to organize a school trip to Pondicherry in order to show the boys that France is nearer than they think.

ARE THERE ANY SIMILARITIES BETWEEN THE EDUCATION SYSTEMS IN MAYO AND FRANCE?

The two systems could not be more different. In France, lessons start at 8am and finish at 4 or 5pm. The focus is on academic subjects. We hardly do sports and rarely take part in any pastoral activities. I believe the Mayo system is much healthier and stimulating.

WHAT DO YOU THINK ABOUT THE PERSONALITY OF INDIAN PEOPLE?

I love your spontaneity and flexibility. In Europe everything must be planned three months in advance. A friend of mine has already booked her hotel room in Pushkar for March 2024!

WHAT DO YOU LIKE MOST ABOUT INDIAN CULTURE?

The foood! Especially South Asian cuisine! Besides I am a big fan of traditional Indian fashion and love wearing kurtas and jutis. Too bad I cannot wear them for my lessons....

WHAT WERE YOUR IMPRESSIONS OF LCF 2023?

I was so impressed with the amazing level of the participants. They sang and performed like true professionals! As a French teacher I was thrilled to see how my native language can inspire so much efforts and enthusiasm!

WHAT DOES MAYO LACK?

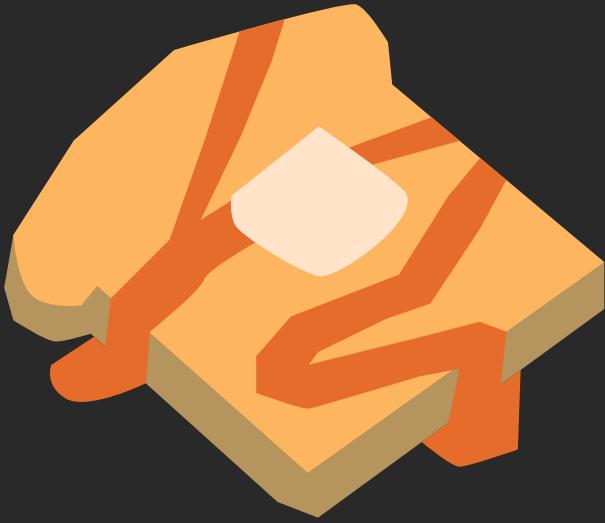

It is a shame that students have to choose between French and German. It would be great if they had the chance to learn both languages. And why not Spanish...

LAST WORDS?

BELGIAN WAFFLES VS FRENCH TOAST

✂✂

Belgium is a country that is very famous for its **mouthwatering waffles**. They can be eaten in Breakfast, Lunch, Dinner or even as a snack (AH I WISH I HAD ONE RIGHT NOW!). The Belgian waffles and the French toast are two breakfast foods that have been popular around the **world for generations**. Both are sweet and are enjoyed with condiments and toppings. **However**, there are many differences that make them unique in their own way.

SO WHICH IS BETTER?

The choice between a Belgian Waffle for a crispy, soft, warm, and light breakfast or a French Toast for a savory, fluffy, and traditional breakfast depends on your preference.

IN THE END

Both are the perfect dish for a good breakfast and are perfect for your sweet and savory cravings. Both the dishes have an interesting origin and both are closely related to their countries' culture. Try them for yourselves to find out which is better.

The love between

Charles de Gaulle and Cheese

The great General Charles de Gaulle once mused, "How can anyone govern a country that has 246 varieties of cheese?" As the Chairman of the provisional government of the French Republic, he was well aware of the vast array of fromage that his homeland boasted. Today, France is home to a staggering 1600 distinct types of cheeses, each falling into one of eight families that include pressed, soft, blue, and fresh cheeses, to name a few. Through the EU's Common Agricultural Policy, established cheeses, including many French varieties, are granted a PDO, as are those in Italy's DOC system and Spain's system.

However, it is worth noting that Italy, with its approximately 2,500 varieties of cheese, may have been a more fitting place for General de Gaulle to have governed. Nevertheless, his remark may have been a reflection of his desire to celebrate the diversity of France's people. Despite their many differences, the French unite under concepts like "la patrie" and "le citoyen". This spirit of unity in diversity is shared by other nations, such as India and Switzerland.

The **aroma** of these pastries *fueled* the fight for freedom, playing a role in shaking up the monarchy and shaping France's destiny.

IT IS !LLEGAL TO NAME YOUR PET NAPOLEON

France, known for croissants, wine, and the Eiffel Tower, hides intriguing depths and quirky laws. Naming a pig Napoleon is illegal here, despite his historical significance as Emperor. This prohibition dates back to 1804, during his reign when people playfully named their pigs after him. He disliked it, leading to a law that persists today, risking fines or imprisonment if you defy it.

How to Avoid Accidentally Insulting Your Waiter

To avoid unintentional insults to your waiter in France, address them as "Monsieur" or "Madame" and avoid using generic terms like "hey you." Opt for medium-rare steak, not well-done, and never mix red and white wine. Remember to tip a few euros for good service. Follow these tips for a seamless dining experience in France.

THE ROOSTER

IS ABSURD

IN THE FRENCH COUNTRY SIDE,

roosters symbolize more than décor—they embody the essence of French culture, representing national pride and adorning fan gear for sports teams.

Rooted in Christian tradition, they hold religious significance, often perched atop church steeples for divine symbolism. A historical tale links the rooster to a victorious moment during the Hundred Years' War. Whether for pride, religion, or history, the rooster stands as a cherished symbol of France, adding a touch of crowing confidence to its culture.

EVERYTHING “FRENCH”

definitely
not anything else

French culture is almost as imbibed in our daily lives as much as Western culture is. Bread, berets, breakfast foods- many things come to mind when someone mentions France. As it turns out, most of these things weren't even invented in France.

So stop fantasizing about getting a French kiss, put down that croissant and let's find out the real origin of these things today.

FRENCH FRIES

*Yes, the first
shocker had to be
this!*

I'm sorry to tell you that if you thought you'd go to France and have a taste of authentic French Fries, *you were wrong*. Because for that, ***you'd need to visit Belgium***. Yes, Belgians have been frying potatoes since the 1600s and relishing this treat just like they sliced and fried their fish.

Surprisingly, the Americans didn't discover this until ***World War I*** when **US Soldiers stationed in Belgium** tasted the fries and ***nicknamed*** them "**French**" Fries concerning Belgium's official language. So, these fries originated in Belgium and became a staple diet for the United States even though their name was "French Fries", and that too, was a very **misleading one**. But I'm sure you'll agree that "**Belgian Fries**" **wouldn't roll off your tongue** as much as "French Fries" would.

FRENCH HORN

The French Horn was not invented or modified in France but by German makers Heinrich Stölzel and Friedrich Blümel. Despite this, the horn's intricate design earned it the nickname "French" horn, which has stuck over time.

FRENCH TOAST

The dish was invented by the Ancient Romans in the 5th century and remains unchanged. However, a New Yorker named Joseph French added a modern twist in 1724 and the dish was named after him instead of France.
